## Ukranian team to Voss

Due to the situation in the Ukraine we are trying to help a team to Norway and Voss to participate in the championships. Through our network the Executive Officer of Skydiving, Knut Lien has got in touch with ALIS, a team with a former military background.

Skydiving is an expensive sport and can strain anyones resources. A war in your backyard doesn't help. We have applied through official channels for economic support, but have unfortunately been declined. But if we all join in with an amount, however small or large, we can make a difference. We also believe that the skydiving community will benefit from staying together regardless of what happens in the world.

We use the acclaimed *Spleis* platform for this charitable collection. Unfortunately it is only in Norwegian, so please use your browser or google translate to convert into your preferred language. Then use the option for a card transaction at whatever amount the suits you.

We appreciate all the help and support we get. Thank you!
